## 1971

*The class of 1971 is included here because it represents a significant element of RCTS's history. At a pivotal time in the school's history, this class became the rising seniors immediately after it was closed in the Spring of 1970. Most of them had begun their academic journey as first-graders in 1959, and matriculated through their Junior year. However, because of the timing of the desegregation order, they were separated, displaced, and scattered throughout the various high schools in Roanoke City School System; and Randolph County School System. But it was through their experiences as classmates at RCTS that they bonded and formed their life-long connection.*
